Fusion Frenzy

With so many places where you can enjoy a good meal, it can be overwhelming to try new foods and flavors. One way to breakdown the options is to select a specific food that you want to try. To get the best of both worlds though, you can always look into trying food fusions. Food fusion is currently one of the trendiest forms of cooking. Combining culinary traditions from at least two different countries or regions into one dish, fusion foods put a new twist on favorite food staples. I've created a few fusion recipes I'd like to share so tonight you'll sample...
